### Associate Membership

1. Where two people wish to cultivate a plot together, Associate Membership can be offered to the second party.
2. This Associate Member shall also sign up to abide by the Rules & Regulations.
3. Maintenance of Associate Membership shall be subject to payment of an Associate Membership fee.
4. No more than one Associate Member shall be permitted per plot.
5. The main, non-Associate Member shall be known as the Leaseholder, and overall responsibility for the lease and plot upkeep shall ultimately lie with them.
6. The Associate Member shall be permitted to cast the plot's vote on behalf of the Leaseholder if they are not present or available.
7. Annual renewal of an Associate Membership status shall be subject to the approval by the Committee of the Associate Member's continued active involvement on the site over the preceding year.
8. In the event of the termination of the Leaseholder's Membership, the relevant Associate Member may become a Member and take over the lease if (and only if) they have actively maintained Associate Membership status and worked on that plot to the Committee's satisfaction for a period of 2 years beforehand (or the duration of the lease to date, if shorter).
9. Associate Members shall not be entitled to assume responsibility for any plot other than that which they have been sharing with their Leaseholder; Associate Members wishing to move to their own independent plot shall apply to join the consecutively ordered waiting list in the normal way.
